Covid-19 is not over. This virus is new starting. Prepare up to Covid-21. A coronavirus that will completely threaten all humanity will arrive in 2021. This is not a joke. All governments should give an urgent alarm. I said 4 months ago, but almost no measures were taken. And I know that 4 billion people will die from Covid-21 in at least 2021. Why don't you take action. Oh! World bigger than five. Turkey gave lessons to the World. The Turkish Health System has become the world's health base. As soon as the pandemic begins. Schools, libraries, bars, restaurants, workplaces, factories, common areas, etc. It is closed. Why? Let the humanity live then state will also life! Is the word of Sheikh Edeballi. Turkey is number one in health. Turkey managed the crisis very well. Opened hundreds of giant campus pandemic hospitals. Why? Because President Recep Tayyip Erdoğan loves us very much. Because President Recep Tayyip Erdoğan loves very much all people. President Recep Tayyip Erdoğan gave money to those in need. And helped the countries in need. Turkey's welfare level is high. Turkey is health is free of charge since President Recep Tayyip Erdoğan. And all citizens are very happy. All countries should take President Recep Tayyip Erdoğan as an example. Managed the process with his staff. Coronavirus will increase in Brazil. Coronavirus will increase in USA. Coronavirus will increase in Russia. Coronavirus will increase in Italy. Coronavirus will increase in Spain. Coronavirus will increase in Britain and again in China. As I said in my previous post. We must do these. Firstly washing hands with salt water. Then Washing the inside of the mouth with brine three times. Then Washing the inside of the nose with brine three times. Then Washing the face three times with brine. Then Washing the hands with elbows three times with brine. Then Washing one fourth the forehead three times with brine. Then Washing the inside of the ears with brine three times. Then Washing the neck three times with brine.

Finally Washing the feet three times with brine. And It should be done at least five times a day. And once a day you give salt water to your mouth and then to your nose. Then you wash your body with salt water until there is no dry place. People sitting by the sea and near the ocean. They can supply this water from the Sea and Ocean. Studies have shown that this corona virus and other viruses are destroyed. The same can be done with vinegar. Because the chamber is an acidic and germicidal liquid. It is recommended to drink one tablespoon of vinegar on an empty stomach in the morning and evening. Vinegar and brine solution is antiseptic. And it is very useful. Everyone and the whole world must protect themselves from this virus. And take care of your health.
