Introduction

Year 2020 adds up to four that is ruled by mystical Rahu. The probable challenges accessed on the basis of astrological analysis of India's yearly chart (varshfal) were studied by taking the details: 1 January 2020 at 00.05 am, New Delhi.

The yearly chart of India in 2020 has Virgo ascendant. Major ruler of Virgo is Rahu that was placed in Gemini zodiac sign in 10th house while the secondary lord of Virgo i.e. Mercury, placed with Sun, Ketu, Jupiter and Saturn conjunct in 4th house in Sagittarius zodiac sign. Venus was placed in 5th house in Capricorn, Moon placed in 6th house in Aquarius and Mars in 3rd house in Scorpio sign as per horoscope. Involvement of Jupiter with major celestial bodies in proximity at fourth house clearly indicated the major challenge due to severe respiratory infection.

Medical astrology analysis of COVID-19

The fourth house of the horoscope denotes lungs while Jupiter refers to the oxygen. Combination of Saturn and Ketu leads to infection, based on its position in horoscope. The placement of Saturn, Ketu and Mercury together casts an antagonistic effect on Jupiter. Moreover, the Rahu has its significant adverse effect on Jupiter that leads to be a pandemic, COVID 19. Jupiter, the intensifier being a part of the group further intensifies the malefic effect. Hence, Corona evolved as air borne viral infection. Since, Sun governing the medicine, is the part of the combination that lays ineffective, with Saturn and Rahu. As a consequence, there was no vaccine of the infection [1-7].

Symptoms appearing due to the combination of five celestial bodies included fever (Rahu), cold (Saturn), cough (Rahu), low immunity (adverse effect of Rahu and Saturn on Jupiter), respiratory

infection (involvement of second, third, fourth house due to Ketu in fourth house), body pain (Saturn and Mercury), lack of smell (effect of Saturn on fifth house) and lack of taste (effect of malefic Ketu effect on second house) etc.

The placement of five major celestial bodies together in the fourth house under the malefic aspect of Rahu from tenth house. Rahu under such circumstance while influencing all the planets casted the effect from the third month (March). Rahu refers to foreign moiety, as a result, a virus of foreign origin enters the country through foreigners visit that spreads it all over India with time.

The major group of planets were in close proximity approximately from 21 November 2019 to 15 January 2020. The planetary effect will be pronounced in the birth chart of the newly born and the native who have birthday within this time domain, as their yearly report will show its adverse effect in one way or the other. Taking the Vaastu of the horoscope in consideration it is certain that primarily North, West and South region of India will be affected by Corona. With time the infection will spread tremendously throughout specially in northern India.

The increase in the number of Corona cases will be significant in 5th month and 6th month. The infection will reach at its peak in the 9th month i.e. September 2020. Venus placed in the 5th house and aspect on 11th house will bring relief to the situation in October. The Corona infection cases will decline and subsequently subside with the end of the adverse planetary interactions.

Due to placement of Venus it can be predicted that in November the vaccine for Corona virus will be there to enlighten the hopes. The probability of reoccurrence of Corona infection and its after effects will prevail due to the reinforced effect of Ketu [2-7].
