Problem summary: Sciatica pain healing through natural energy healing methods

Sciatica is nerve pain from irritation of the sciatic nerve. The sciatic nerve is the largest nerve in the body.

One of our lady patient suffering from sciatica pain, numbness, tingling in her left leg from the last 2 years. Our patient has undergone few physiotherapy session and it was normal for some time. It recurred again and the pain started spreading to right leg. It affected patient's self confidence and overall outlook.

Our solution

We started healing the patient using reiki distant healing and Mexican distant healing. It does not require physical touch (unlike touch healing). Within a month of healing patient's tingling and pain vanished. Within 2 months (63 days of healing) patient was completely back to normal.

How we healed sciatica pain?

We energized all her energy centers focusing more time on root energy center.

We healed her central nervous system, lumbar area, nervous systems, skeletal system, spinal cord and pain area in the legs, ankles and knees.

Methods used in healing

1. Reiki distant healing (using natural energy healing).
2. Mexican distant healing (using light energy healing).
3. No medicines given during the treatment.
