Problem summary

Pilot test on 10 diabetic patients. A pilot project work has been done by giving them herbal diabetes butter milk and reiki distant healing.

Out of 10 patients, 7 patients have showed drop down in their glucose level and 3 patients glucose level went up. We then worked on giving reiki distant healing to 3 patients simultaneously by 1 healer. 3 patients at 3 different location and healer is at different location.

All 3 patient's glucose level dropped down by 85 units.

Clinical impression

1. All 3 patients were having high negative blockages in their body, organ and brain. When we removed it through reiki distant healing their glucose level went down. We have energized their pancreas and healed their few stress, anxiety hormones too. The time taken to heal was 5 minutes for each patient. Treatment duration was 15 minutes for all 3 patients.

Our solution

We provided Reiki distant healing to all the 3 patients to bring their glucose level down by 85 units in 5 minutes duration.

Methods used to heal cancer:

1. Reiki distant healing.
