For decades an elite group of controlagarchs, philanthropaths and misanthropes have been plotting to destroy western society and from its ashes launch a new world technocracy where a few trans-human aristocrats would have all the power and control of a greatly reduced human population of dumbed down serfs that would serve them in a neo-feudal world. Its origins go at least as far back to the creation of the Illuminati group in 1776, which actually had good intentions but the lust for power and control turned them into a societal cancer. Wars, famine, bioweapons – they have experimented with them all and have been behind the greatest tragedies in modern times.

One of the more salient examples is the deliberate poisoning of the population with water fluoridation well known to lower cognitive abilities and cause cancer. Americans were indoctrinated to not question authority figures, so if an authority figure said take something it is good for your health, few would question. Critical thinking was not encouraged and educational standards were not only relaxed but done away with.

Then came the destruction of the western man. As a gender most men suffer in ways women either can't understand or don't care to understand. It is challenging being a man in our unlovely society - more challenging than most know. In our dystopian culture men are basically disposable, and are more socially isolated and lonely than they have ever been. Men will lean on drugs and alcohol as a way to numb their feelings and their pain, but that is a self-destructive path with no upside.

There is something really pernicious about what has happened to young men - they were disproportionality affected, or should I say their brains, by the explosion of vaccines required to go to school, especially the ones given between 1989 and 2003 which were loaded with mercury, which impacts males more than fe-

males because testosterone increases mercury toxicity. So, the first red flag I noticed, about 25 years ago, were the math scores of male students dropping like a lead balloon on one end of the spectrum and the autism rate exploding on the other end.

When I went to medical school in the 70's the autism rate was 1:10K now it is more like 1:20. In 2004, I was invited to address a Congressional Committee on the matter and off the record I was told, by a government official, that everyone in the upper echelons of government who wanted to know whether vaccines cause autism already knew that the vaccines did cause autism but would do nothing about it. In fact, they were doing everything to obfuscate the issue to protect the government from liability. None of the vaccines were safety tested and certainly not in combination, but vaccines became the sacred cow of the medical cartel and you see where that got us. It got us COVID – and our collective apathy or ignorance about the dangers of vaccines and how they were being weaponized against humanity allowed a democide to take place the full impact of which has yet to be felt.

Let me point out that autism is a vaccine encephalopathy, and just because someone doesn't have full blown autism doesn't mean their brains or immune system got past that process unharmed. So, now we have two generations of children first being poisoned by mercury and now aluminum with a chaser of fluoride and endocrine disrupting chemicals, such as Atrazine, which is a very potent estrogenic endocrine disrupter. Just an example, the Pediatrx vaccine contains 850 mcg of aluminum, but the safe limit, as per the FDA, is 25 mcg

Buying houses and starting a family are the pistons of a large part of the economic engine in the US. What happens when the timing of those pistons goes so far off that the engine stops because we have poisoned our children, turned men into effeminate cogni-

tively impaired soy-boys with massive debt and pushed the ideology that authentic men are toxic. What happens? They stop dating, they stop getting married, that is what happens. Meanwhile young women are on birth control pills that unbeknownst to them severely affects their behaviors, choice of partners and robs them of joy by interfering with the oxytocin reward system in their brains [1].

Most don't want to believe there has been a multi-decade plot to collapse western society especially the USA, but look at today's social justice movement fostering a constant revolution with no end in sight be it feminism, gay rights, antiracism, trans rights, DEI and a host of other social issues that are never settled and never stop. It has been about expanding their influence to the point where humanity becomes one mindless sack-of-crap that operates with one single ideology so they can be used as a political tool.

This misanthropic movement jumps from cause to cause, so first came feminism that did well lying to women about how important it was to destroy their femineity and emulate men. It went a long way in destroying the family, but it petered out after it successfully accomplished most of its goals. Today, transgenderism is

the cause celeb even though most of its ideology conflicted with feminism, but that is irrelevant because the goal is the centralization of power, but if you sterilize yourself, as many do in the transgender movement, all the better.

These social revolutions are required to bring in a neo-feudal dictatorship. Take DEI – an ideology that thrives on double speak; Diversity = conformity; Equity = some animals are more equal than others; Inclusivity = the exclusion of those opposing the Woke mind virus. The DEI movement ignored the fact that in a free society minorities have the same rights under the law as everyone else, but a free society was what DEI wanted to destroy.

The disgusting horrible truth about the COVID jab (never was a vaccine) was known by our governments, the military that controlled and ran the democide and of course the vaccine manufacturers before the first arm was jabbed. The gene-therapy bioweapon was only meant to cleanup the survivors from the devastating CoV2 UNC/Wuhan created virus but the virus was a dud...weaker than the flu for most. Today, we are seeing that the modRNA (it is not mRNA but modified mRNA) gene injection is causing excess deaths, infertility, and catastrophic immune dysfunction.

Figure 1

The Most Jabbed Countries in the World have the Highest Cancer Rates and it's a Landslide - 462.5 vs. 35.9 per capita cancer rates. Source: World Population Review. Australia: 462.5 vs. 35.9 Sierra Leone Cancer Rate per 100K.

The sequelae of the jab, in the context of cancer, is clear for the countries (Western countries) that were jabbed the most are plagued the most now by cancer. Africa essentially untouched.

Now, CoV2 is called a corona virus and that was its origin, but this lab created chimera is more retrovirus than corona. Yet, it was still milder than the seasonal flu and the average age of death was 82 years of age. This was despite the fact of HIV gp120 inserts in the Spike Protein of this lab-created virus. That is where the so-called "vaccine" came in. It was meant to finish off the survivors, but there weren't supposed to be so many survivors, which caused a few problems.

But it gets worse, Dr. Kevin McKernan, a genomics scientist gene-sequenced a cancerous tumor, matching the genetic sequence to Pfizer's Covid mRNA injection.

The discovery is being hailed as definitive proof that Covid mRNA "vaccines" cause cancer [2].

Twenty years ago, when I was told the government knew vaccines were causing autism and would do nothing about it, I felt we were just going to have to wait till 2035 when the incidence was one out of every two boys. I figured that would bring down the government and maybe these kids could finally get treated and we could once and for all stop giving these deadly, mind and body destroying vaccines.

The timeline has speeded up and we are now at a crossroads. We have a choice. Either terminate the vaccine program for its negative efficacy and lack of safety testing or go the way of all bloated, corrupt governments/empires and just be a footnote in history.
