Abstract

This article describes how human minds are connected to each other and to God's energy wirelessly via spiritual internet like network of electromagnetic energy particle of human mind filled in God's field. This connection between human mind and God's energy is activated by worship, prayer, deep meditation (Quantum Entanglement) and near-death experience.

Keywords: Human Mind; Spiritual Internet; God's Field; Electromagnetic Energy of Human Mind

Introduction

The whole universe is running illusionally with two worlds - Materialistic World which runs per materialistic science and Spiritual World which runs per spiritual science [1-6].

Just like per materialistic Physics, the Higgs field fills the Universe and the interaction of elementary particles (electrons and quarks) with the Higgs field give them their mass.

Similarly per Spiritual Physics, the Universe is filled with God's field and the interaction of Electromagnetic Energy Particles of human mind with the God's Energy field gives them their mass.

Just like in Materialistic world, there are wireless Internet, Website, E-mail address and iPhone number, similarly there are wireless spiritual Internet, Website, Email address and iPhone number in Spiritual World. God's Energy Field exists in the whole universe. God's energy particles act as the wireless transmission.

Spiritual Internet connects all human minds with each other and with God wirelessly. Spiritual Website: UWW.God.Soul.Mind, where UWW = Universe Wide Web, Spiritual Email Address: God@Soul.Mind, Spiritual iPhone: Mind:Soul-God.

God's website, e-mail address, iPhone number can be reached not via computer but via worship, prayer (preferably with silent tears), deep meditation and near-death experience. One can hear God's voice when reached at end-stage meditation (Quantum Entanglement) [3].
